

Name: _____ Date: _____ Class: _____

Primary Source Activity

Directions: For the first 11 minutes you need to work as an individual and form an answer to all of the corresponding questions below. Use the pictures, images 1 and 2 to compare and contrast these events and how they helped change American history. After the timer is sounded, you will then be given approximately 14 minutes to compare answers with your seat buddies, prior to my collection to this assignment.

Logic and reason are the only acceptable methods of answering these questions. Blatant silliness will result in a zero. Best of luck, if you have questions please do not hesitate to ask.

Level 1 Questions

1. **Divide the image into four sections.** Look closely at each quadrant and describe exactly what you *see* in each. For example:

What people do you see?

What objects?

What is the setting and season?

2. In what time period were these pictures created? Be specific (years)

Level 2 Questions

3. Describe the style and purpose of these images (for example, is it posed or candid?) From which perspective do you believe each image was created? In other words, is their bias involved in either one of these images? Explain.

4. Who is “winning” in each image? Explain how you have made this conclusion.

Level 3 Questions

5. How do these two chosen images show change from this era? Compare both images within your answer.

6. Based on the time frame represented which image do you believe is more accurate? Explain.

7. What do you believe is actually happening in these pictures, be specific?

8. If you had to choose one of these images to be a piece of art in your own home, which would you choose? Explain
